First international Woman race for the „Ladies Cup 2007“in Dreetz/Brandenburg (North East of Germany)

30 international female MX riders did participate the first race to the „Ladies Cup“ 2007 in deep sand on the perfect MX track of Dreetz/Brandenburg (close to Berlin). Just behind three sand specialists from Netherland, Birgit was able to finish two times on seventh position together with her four German colleagues Steffi Laier, Larissa Pappenmaier and Maria Franke on position 1, 2 and 3. There were really tough conditions for the Ladies with two motos, each almost 23 min.+ two laps. The track was very deep sand which is really not our area but we were trying to practice before in the Netherlands and Belgium to survive in such environmental conditions.

Birgit`s comment: “Sand is not my favourite, but I am trying my best, we come from the south of Germany where we have hard pack tracks, so I am looking forward to the next rounds where I can show my technical skills much better!”

Next race: Triptis Germany (ex European Woman Championship) 2007-04-21/22
